

MISSION STATEMENT.

To provide **research-based solutions** that protect and conserve the water resources within the Suwannee River Basin and Coastal Rivers Basin, including the implementation of voluntary or incentive-based programs.

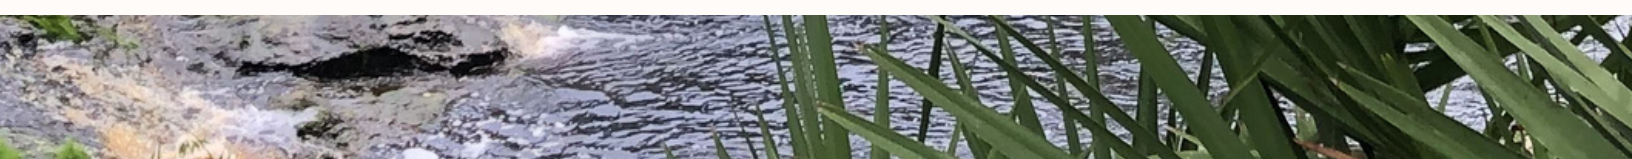

VISION STATEMENT.

To be an **effective partnership** advocating for water quality and conservation for all citizens of the Suwannee River Basin and Coastal Rivers Basin.

PARTNERSHIP FACTS.

- ◆ Formed in 1999
- ◆ The partnership meets quarterly to address water quality and quantity issues in the Suwannee and Santa Fe River Basin to conserve water resources.
- ◆ It is comprised of a diverse group of individuals from federal, state, regional and local governments, as well as farmers, residents, agricultural and environmental associations.
